Brenna Helmstutler
Coordinator of Health & Sciences Team

Sharon Leslie
Librarian for Kinesiology & Health Education, Nutrition, Physical Therapy, Public Health, Respiratory Therapy

As part of the team-based structure within University Library's Public Services area, the Health & Sciences team comprised of five subject librarians was formed in 2011 in order to support GSU's 2011-2016 Strategic Plan:

Goal 3: Become a leading public research university addressing the most challenging issues of the 21st century.
Initiative 5: Enhance Georgia State's contributions to the sciences, and health and medical research and education.

PubMed Workshops

To help students gain critical research skills earlier in the semester, the Library will be offering PubMed workshops in Classroom 2 of Library North. These classes will be offered each Fall and Spring semester. Have YOU forgotten how to use MeSH? Come on down or schedule an appointment with your subject librarian.

The dates are as follows:

Promotion and Tenure Tools Guide

Our Promotion & Tenure Tools Guide includes sources and tools that can be used to create comprehensive evidence of scholarly impact.

Lesley Mackie
Librarian for Biology, Neuroscience, Computer Science

Ida Martinez
Librarian for Psychology

Todd Prusin
Librarian for Nursing and Health Sciences

Jackie Werner
Librarian for Chemistry, Mathematics & Statistics,

- Monday, September 10, 3:30 pm - 4:30 pm
- Tuesday, September 11, 11:00 am - 12:00 pm
- Wednesday, September 12, 8:30 am - 9:30 am
- Thursday, September 13, 12:00 pm - 1:00 pm

Data Management

The data created from your research could be useful to other researchers and a data management plan helps to ensure that your data can be discovered and reused. This guide explains what a data management plan is, why you need one, where you can deposit your data and what the GSU Library can do to help.

Finding Chemistry Resources with SciFinder Scholar

If you've never used the Chemistry database SciFinder Scholar before, now is a great time to try it--the library has a new SciFinder Scholar research guide, for both new and advanced users, and there is no longer a limit on how many users can access the database at once. To get started, create a free account using the Register link, log in, and check the research guide for tips on searching by topic, substance, or reaction.

JournalTOCs
The latest Journal Tables of Contents

Alert Services: Table of Contents & Databases

JournalTOCs is a free service that makes it easy to find, display and store Tables of Contents from scholarly journals from over a thousand publishers. You can also import them into your

Physics & Astronomy

Google Feed Reader or Microsoft Outlook RSS Feed Reader. See instructions on our guide to JournalTOCs.

Databases like PubMed, Web of Science and Biological Abstracts also provide alert services to RSS Feeds or Email. See instructions on our guide to Database Alerts.
